Subject (9087990) Re_ Delfasco Monitoring Wells 

Rick,

Would I still contact Philip Kadlecek in order to gain access to the Delfasco site? I would like to place approximately three passive soil gas samples at the site.

Bret

Subject Re: Delfasco Monitoring Wells 

Bret,

my suggestion would be to contact Philip Kadlecek, President of Delfasco at 817 268-0781 (work), 302-463-4546 (cell) or Cindy Mendez at the City of GP at 972-237-8225.

Rick

Subject Delfasco Monitoring Wells

Melissa,

As part of our investigation of the Delfasco site, we are going to need access to several of Delfasco's monitoring wells as well as their property to sample shallow soil vapor (using the passive samplers). Do you have a contact for getting access to this property and to the wells?

Thanks,
Bret
